

## **WHO'S IN CHARGE?**

# **We the People Are!**

The only way to combat the control of this nation by corporate and other special interests is to ensure that the citizenry is engaged, vigilant, knowledgeable and empowered. A healthy democracy demands a persistent and consistent electorate. Voters can not afford to give up on the political process, but must stay involved even when and particularly because it isn't good enough

Join Boulder County Democrats, elected officials, activists and professionals in the field in exploring current issues of utmost import. Core Democratic Party values and key policy recommendations must be clearly defined and voiced so that the will of the voter can be represented effectively by our elected Democratic officials. Help us determine or 2010 BCDP Platform. Together we can empower the will of Democratic voters to help drive our state and federal legislative agenda.
